Programming Interview Questions + Help Getting Job Offers ...

ctypes is part of the standard library, and therefore is more stable and widely available than swig, which always tended to give me problems.. With ctypes, you need to satisfy any compile time dependency on python, and your binding will work on any python that has ctypes, not just the one it was compiled against.

Calling C/C++ from Python? - Stack Overflow

The subreddit for the C programming language. The network is just a nonlinear function estimator. A simple polynomial regression will perform exactly the same way better, and is a lot easier with such low-dimensional input. This is a neat showcase of how these networks can actually estimate any function depending on the data you throw in there, though.

I wrote a simple neural network in C that predicts gender ...
