The correct answer is that a butterfly and an octopus do not have Carnegie stages of development, while elephants and turtles do. This is because Carnegie stages of development are stages found only in the development of the vertebrate embryo. Carnegie stages can be defined as a system in embryology, which include 23 stages of the embryonic development, each characterized with the different age ...

The American Civil War was the most deadly and arguably the most important event in the nation's history. Sectional tensions enshrined in the Constitution erupted into a brutal war that cost over 600,000 lives and cleaved a nation in two.. It was a war that would come to define America—that would answer the "slavery question" once and for all.
