Highlights We show how clothes systematically influence wearers' psychological processes. Three experiments demonstrate that wearing a lab coat increases attention. Attention did not increase when the coat was not worn or associated with a painter. Attention only increased when the coat was a) worn and b) associated with a doctor. The influence of clothes thus depends on wearing them and their ...

Air Drying Clothes Without A Clothesline. We all know that if we don't dry our clothes in the dryer we save on electricity, but many of us don't think about how the dryer reduces the life of our clothes. For a long time I couldn't understand why so many people were buying scads of socks and underwear for their families every few months.
