The purpose of this page is to provide resources in the rapidly growing area of computer-based statistical data analysis. This site provides a web-enhanced course on various topics in statistical data analysis, including SPSS and SAS program listings and introductory routines. Topics include questionnaire design and survey sampling, forecasting techniques, computational tools and demonstrations.

## Inferring From Data - home.ubalt.edu

In this paper, we address the problem of generating person images conditioned on both pose and appearance information. Specifically, given an image  $x_a$  of a person and a target pose  $P(x_b)$ , extracted from a different image  $x_b$ , we synthesize a new image of that person in pose  $P(x_b)$ , while preserving the visual details in  $x_a$ .
