Additional Bond Terminology. Bonds are a form of long-term debt and might be referred to as a debt security. Bonds allow corporations to use financial leverage or to trade on equity. The reason is that a corporation issuing bonds can control larger amounts of assets without increasing its common stock.

Job costing (also called job order costing) is best suited to those situations where goods and services are produced upon receipt of a customer order, according to customer specifications, or in separate batches. For example, a ship builder would likely accumulate costs for each ship produced.

Job Costing Concepts - principlesofaccounting.com

We examine the association between employee quality and financial reporting outcomes. Using the average workforce education level in MSA(s) where the firm operates as a proxy for employee quality, we find that firms with a high-quality workforce exhibit higher accruals quality, fewer internal control violations, and fewer restatements.

Employee quality and financial reporting outcomes ...

A Misstatement is Inconsequential. If a reasonable person would conclude after considering the possibility of further undetected misstatements that the misstatement either individually or when aggregated with other misstatements would clearly be immaterial to the FINANCIAL STATEMENTS. If

a reasonable person could not reach such a conclusion regarding a particular misstatement, that ...

1. Introduction. The possibility that firms can develop a competitive edge over rivals by investing in social responsibility has been made increasingly likely over recent years by changes in investors' behavior and attitudes towards the society (Graves and Waddock, 1994, Saleh et al., 2010, Wahba, 2008b, Wahba and Elsayed, 2014a).As such, the concept of corporate social responsibility (CSR ...

The mediating effect of financial performance on the ...

In corporate finance, as part of fundamental analysis, economic value added (EVA) is an estimate of a firm's economic profit, or the value created in excess of the required return of the company's shareholders.EVA is the net profit less the capital charge (\$) for raising the firm's capital. The idea is that value is created when the return on the firm's economic capital employed exceeds the ...
