In earthmoving, cut and fill is the process of constructing a railway, road or canal whereby the amount of material from cuts roughly matches the amount of fill needed to make nearby embankments, so minimizing the amount of construction labor.

Cut and fill - Wikipedia

As we have mentioned before, it is practically impossible to cope with both part-time job and studying duties. In this tough situation, we, as retired students, took a responsibility to help a new generation and provide young people with quality college and high school homework help that they really deserve.

A prime number (or a prime) is a natural number greater than 1 that cannot be formed by multiplying two smaller natural numbers. A natural number greater than 1 that is not prime is called a composite number. For example, 5 is prime because the only ways of writing it as a product, 1×5 or 5×1 , involve 5 itself. However, 6 is composite because it is the product of two numbers (2×3) that ...
